## 4: PROBLEM SOLVING:

When it comes to travel the world, almost every human being living on this earth would love to explore how gorgeous and charming their planet is. When they decide to finally travel, the very first question comes in their mind is, “where to go first?” or “which place would be suitable for us to explore next?” Here comes the use of WanderWaves, this website provides you multiple ideas of tours according to your likings, you can gain more knowledge about places by clicking on “Click to know more”.

**“Travelling – it leaves you speechless, then turns you into a storyteller.”**

**(Ibn-e-Battuta)**

## **5:REQUIRMENTS:**

**Software Requirements:** For developing WanderWaves, we used a code editor which is 'Visual Studio Code' and a web browser Chrome.

Front-end and Framework for WanderWaves is manual we used HTML for coding, CSS for designing and styling, JavaScript for performing functions.

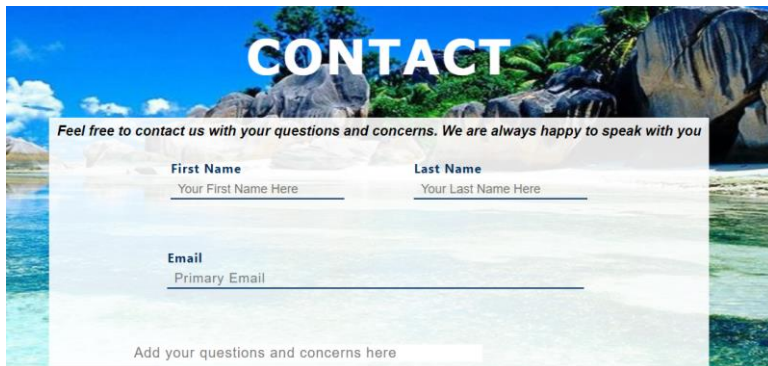

**Hardware Requirements:** Hardware which are used for developing WanderWaves are Samsung Laptops.
